HARSH KSHIRSAGAR

Software Developer

Pune, Maharashtra | + 902 245 9086| harsh.kshirsagar001@gmail.com| [LinkedIn](#)

SUMMARY

Passionate Java Developer with a strong foundation in Java, Flutter, SQL, and RESTful APIs. Experienced in building scalable applications, API integrations, and backend development. Adept at problem-solving, optimising performance, and writing clean, maintainable code. Enthusiastic about learning new technologies and contributing to impactful projects.

TECHNICAL SKILLS: Dart, Java, Flutter, Firebase, RESTful APIs, State Management (Provider, Getx), Android, Agile Development, Git, SQLite, Agile, Azure, AWS fundamental

PERSONAL PROJECT & TECHNICAL EXPERIENCE

Swayamsevak Project – Social Service & Management System [[GitLab](#)]

A platform designed to connect volunteers with social initiatives and provide tools for managing community contributions, events, and real-time updates.

- Developed a JavaFX-based UI for intuitive event management and volunteer tracking.
- Integrated Firebase Authentication for secure user registration and role-based access.
- Implemented Firebase Firestore to handle real-time data synchronization.

EventAura (Event Management App) [[GitHub](#)]

An event booking platform that simplifies event planning, ticket sales, and attendee management. The system provides real-time updates and reminders.

- Created a role-based event booking platform allowing attendees and organizers to manage events.
- Implemented Stripe Payment Gateway for secure ticket bookings and calendar synchronization for event reminders.
- Make sure your resume is filled to the bottom of the page.
- Achieved a 30% improvement in API response time by leveraging caching techniques and optimized API calls.

Fashion App(e-commerce) [[GitHub](#)]

An e-commerce fashion platform that allows users to browse catalogs, view product details, manage their cart, and complete secure checkouts seamlessly.

- Developed a fashion shopping app with catalog browsing, product details, and cart management.
- Integrated Firebase for real-time data sync and Provider for efficient state management, ensuring a smooth shopping experience.
